EXPERIENTIAL WORKSHOP

Maximizing Your Potentials Sensory Processing & Primitive Reflexes

LILY CHING

SUNDAY 16 FEBRUARY 2014

12:30-15:30

AMSTELVEEN

teity

Brain Body Optimization

Mobile: 06-27838132

Email: rmt@teity.nl

website: www.teity.nl

Location:

Jumph Praktijk voor
Fysiotherapie

Sensory input triggers a series of physiological, emotional and behavioral responses unique to each individual. However babies react in similar ways due to the inborn automatic responses patterns called “primitive reflexes”. Sensory stimulation and primitive reflexes are key components to neurological development.

Contents:

- How senses are processed
- How primitive reflexes affect us
- How RMTi program integrate senses

For whom:

- School teachers, parents, occupational therapists, physiotherapists, yoga instructors and everyone who wants to experience RMTi program.

Instructor

- Lily Ching is a certified RMTi provider. She uses RMTi extensively to help herself recover from scoliosis, hypersensitivities, chronic illnesses, allergies and chronic muscle pain.

Language:

- English and Dutch

Fees:

- €20 incl. VAT (BTW).

Location:

- Jumph, Keizer Karelweg 489-491, 1181 RH Amstelveen. Free parking available on site.

Notes:

- Coffee and tea will be provided.
- Wear comfortable clothing for floor exercises.

Registration:

- Spaces are limited, please email rmt@teity.nl to book a place.
